900	820	1055	1140

Floor Protector Requirements

The Milan Milano Harmony requires a floor protector of non-combustible materials. The floor protector must extend under the heater, a minimum of 300mm in front of the door glass, and 100mm to either side of the heater. The minimum floor protector size for a wall setting installation is 820mm deep and 900mm wide.

Seismic Requirements

The appliance and the floor protector shall be mechanically fixed to the floor itself. A provision has been made at the rear of the pedestal to fix through the two holes through floor protector and floor.

Clearance Requirements

The Milan Milano Harmony Series, when installed according to these instructions, complies with the provisions of AS/NZS2918 : 2001 Appendix B - "Thermal Testing of Installation Clearances". No provision is given for installing the woodfire without a flue pipe shield.
